OpenGL, GLSL

C++, C, Assembly

Haskell, OCaml, F#

Linux, Windows

Experience

Software Developer, Epic Systems | July 2016 - Present

Key developer in a multi-year project to adapt software for international customers

- Involved in all stages of development lifecycle from requirement gathering to production release
- Worked with legacy code utilizing a variety of programming languages and technologies
- Designed and implemented subcomponents in accordance with government specifications
- Introduced graphical testing tools to aid development and QA
- Expanded scope of automated testing
- Collaborated with support staff to investigate and resolve issues in production
- Spearheaded initiative to modernize data exchange infrastructure, utilized by several future projects

IT Intern, Venuity Healthcare | Summers, 2009 - 2014

- Assisted with software support and configuration
- Discovered software solutions to automate business processes
- Independently developed in-house software for employee time tracking and document management, still in use today!

Personal Projects

I'm always working on something in my spare time for the fun of it and to sharpen my skills. Check out my project showcase at dzamkov.github.io
